🪪 PROFILE

I'm a Software Engineering student at Instituto Superior de Engenharia de Coimbra, in Portugal. I'm also a freelancer, working on several projects. Passionate about solving problems and learning new things, I'm always looking for new challenges and opportunities to grow. Currently, I'm looking for an internship in the software development field.

🧠 SKILLS

Java

HTML/CSS/JS

C++

Python

Kotlin

SQL

GitHub

Photoshop

🎓 EDUCATION

Software Engineering
Instituto Superior de Engenharia de Coimbra
09/2018 – present | Coimbra, Portugal

📁 PROJECTS

spotle_infinity

03/2024

A web application based on the Spotle game that enables users to play custom levels and create their own levels.

strokey

06/2024

Developed in C++ with WINAPI and JUCE, it's a tool that enables users to use their MIDI device to control their computer actions.

Lactometer

08/2024 – present

Developed in collaboration with RaveShape, it's a tool that enables personal trainers to accurately assess their trainees' lactate levels based on running performance.

💼 PROFESSIONAL EXPERIENCE

Firewatching

07/2019 – 10/2024 | Soure, Portugal

I started working as a firewatcher in the summer of 2019 and have been doing it each summer.

Projects Development

01/2021 – present

I started developing some projects on my own in order to improve my skills.

TechCare

01/2023 – present

I created my own computer and electronics repairing business, TechCare.
